YOUR MODEL U.N. CONFERENCE

You focus on the students and venue - we will take care of the rest! We want to empower schools to host world-class MUN experiences, and we can design conferences from two classrooms within a school all the way up to a national conference with thousands of students.

MUN MATERIALS

Background Guides, Country Matrices, Placards, and more - we can provide all the materials your delegates will need for your conference.

ON-SITE SUPPORT

We can provide a full-time Best Delegate staff member on-site to help support the conference and provide feedback to your Secretariat and Chairs!

CHAIR TRAINING

We can provide Chair Certification Training online and a Chairing Script so that your students can step up to this leadership role. They will also be given feedback and coaching before and during Your MUN Conference.
